November 24, 2009

TO ALL ALBERTA LODGES

The Habitat for Humanity – Red Deer Affiliate is in serious need of a lockable trailer unit to be used to store all their on site construction equipment as well as being portable and can be moved easily from site to site.

At the present time they are renting a cube unit as well as a shed on skids for this purpose. The shed can only be moved by a tow unit as it needs to be winched onto a flat bed in order to be moved

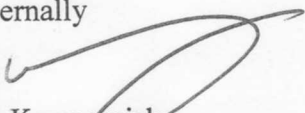

This subject was introduced at the Association Mid Term Executive meetings on the weekend of November 21 and discussed at length. A suitable has been found in red deer, second hand hallmark -28 ft , enclosed trailer with a rear ram door and a side man door, the unit is a 2008 model and in excellent condition, asking price- \$8,000.00, this unit is valued at \$18,000.00 new.

It was agreed by the Association Executive that this would be an ideal unit for this purpose.

The association Executive has agreed to give the Lodges a n opportunity to become a part of the project by proposing that any lodge that donates \$500.00 or more towards the purchase of this trailer, will have their Lodge name and number painted on the side of the unit as a sponsoring lodge, along with the ELKS Logo, and the Habitat for Humanity logo This unit will be visible at all building sites as well as being mobile advertising whenever the trailer is un transit around Central Alberta.

All Lodges interested in participating in this provincial project can forward their contribution to the Association Office with the designation "Habitat Trailer Project" on the cheque.
Brothers and Sisters, this is another way of **OPENING THE PURPLE DOOR**. in Alberta.

Fraternally

Ken Kormarnisky,
Alberta Association Coordinator,
Habitat for Humanity

Nicholas Henger
Secretary - Treasurer
Alberta ELKS Association
